LEAN IN HACKS 8.0

Rules & Regulations

Welcome to Lean In Hacks 8.0! Before participating, all teams are required to carefully read and understand the following rules and regulations. These guidelines are applicable to all participants throughout the hackathon.

1. General Rules and Team Eligibility

- Each team must have at least one female participant. This is a mandatory eligibility requirement for all participating teams.
- All team members must be registered as part of their respective teams on Devfolio.
- Teams must ensure that all information provided during registration is accurate and up to date.
- Participants must maintain professional conduct and respect towards fellow participants, mentors, judges and the organising team throughout the hackathon.
- All projects and ideas must be original. Plagiarism, impersonation or misrepresentation of work will not be tolerated.
- Teams must adhere to all deadlines, instructions and guidelines communicated by the organising team.
- Any changes in team composition must be communicated to the organising team and updated on Devfolio, wherever applicable.
- Each team is responsible for ensuring that all its members are aware of the hackathon guidelines and announcements.

2. Devfolio Registration Guidelines

- All teams must register for Lean In Hacks 8.0 through the official Devfolio registration page.
- Every team member must be added to the respective team on Devfolio.
- The Team Leader is responsible for creating the team and inviting all other members to join.
- Participants must ensure that their Devfolio profiles and registration details are complete and accurate.
- Registration on Devfolio alone does not guarantee eligibility to participate. Submission requirements, as mentioned in the next section, are compulsory.

Important: Individual Male Applications

Individual applications from male participants are **not eligible for acceptance**. Such applicants must **withdraw their existing applications** and reapply only after forming a team with **at least one female member**. Applications that do not meet this requirement will not be accepted.

Devfolio Registration and Participation Guidelines

1. **Complete Application:** Fill in all required details on Devfolio and add all team members (if participating as a team).
2. **Complete Mandatory Tasks: Every team member must individually complete both mandatory tasks as required in the Devfolio applications**.
3. **Submit Application:** Submit your completed application on Devfolio.
4. **Application Review:** The organizing team will review applications and send acceptance emails to eligible participants.
5. **RSVP:** Once accepted, follow the RSVP link in the acceptance email or RSVP through your Devfolio dashboard. **All team members must RSVP individually.**
6. **Check-In:** The organizing team will check in participants only after all team members have completed their RSVPs.
7. **Project Submission:** After check-in, the team admin can submit the project on Devfolio once submissions open.

Important Conditions:

Application Acceptance:

- The team must have **at least one female member**.
- **All team members** must complete **both mandatory tasks**.

Check-In:

- **All team members must RSVP individually** before the team is eligible for check-in.
- Check-in will only be completed once **every team member has confirmed their participation**.

Process Flow:

Complete Application → Add Team Members → Complete Mandatory Tasks → Submit Application → Application Review & Acceptance → RSVP (All Members) → Check-In → Project Submission

3. Registration and Mandatory Google Form

IMPORTANT: Submission of the Google Form is mandatory for every participating team.

- In addition to registering on Devfolio, every team must fill out the official Lean In Hacks 8.0 Google Form.
- Only the Team Leader is required to fill out the Google Form on behalf of the entire team.
- The Team Leader must provide all the required details of every team member, ensuring that the information matches the team's Devfolio registration.
- The Google Form must be submitted before the specified deadline.
- Failure to submit the Google Form within the stipulated deadline will result in disqualification, irrespective of the team's application or registration status on Devfolio.

- Teams are advised to verify all the information before submitting the form. Incomplete or inaccurate submissions may be subject to verification by the organising team.

Please Note: Both Devfolio registration and Google Form submission are compulsory. Completing one does not substitute for the other.

Google Form Link: https://forms.gle/ZHyMy2RqpEVTuHus7

4. Discord and Communication Guidelines

- The official Lean In Hacks 8.0 Discord server will serve as the primary communication platform throughout the online hackathon.
- Every member of every participating team must join the official Lean In Hacks 8.0 Discord server.
- The Team Leader must ensure that all team members have successfully joined the server.
- All important announcements, updates, round-specific instructions and schedule-related information will be communicated through Discord.
- Mentor interactions and guidance sessions during the Ideation Round will be conducted through the Discord server.
- Participants will also be able to interact with mentors and judges and raise their queries through the designated channels.
- Teams are expected to regularly check the server and stay updated with all announcements.
- Participants must maintain respectful and professional communication across all channels.
- Not joining or regularly checking the Discord server will not be considered a valid reason for missing important announcements, instructions or deadlines.

Mandatory Verification Task: All participants are required to complete a specific task of filling out a google form which can be accessed in the task section in our discord server. Access to further information or announcements about the hackathon will be provided after your task is verified by the team. Failure to do so will lead to disqualification. It is an individual work not team based.

5. Ideation and Prototype Round Guidelines

Lean In Hacks 8.0 will consist of two online phases,from Nov 20 - Nov 22: the Ideation Round and the Prototype Round.

A. Ideation Round

- The Ideation Round is a mentor-guided phase designed to help teams refine their ideas and develop a clearer approach towards building their solutions.
- The Ideation Round will be conducted online through the official Discord server.
- Teams will interact with assigned mentors who will provide guidance and feedback on their proposed ideas.

- Mentors will help teams identify potential challenges, evaluate technical feasibility and explore possible approaches to implementation.
- Teams are expected to actively participate in their scheduled mentor interactions.
- No formal submission or project deliverable is required during this round.
- The Ideation Round is **non-eliminatory** in nature. No team will be eliminated based on its performance in this phase, and all participating teams will proceed to the Prototype Round.
- The Ideation Round will account for 10% of the overall evaluation score.
- Although this round is non-eliminatory, active participation is encouraged as the evaluation will contribute towards the team's final score.

B. Prototype Round

- The Prototype Round is the development phase in which teams are expected to implement their proposed solutions and build a functional prototype.
- All participating teams will proceed to the Prototype Round following the Ideation Round.
- Teams must develop a working prototype or Minimum Viable Product (MVP) addressing their chosen problem statement or track.
- The prototype should demonstrate the core functionality of the proposed solution.
- Teams must ensure that their work is original. Any external resources, libraries, APIs or tools used must be appropriately acknowledged.
- All required project deliverables must be submitted within the specified deadline and through the designated submission platform.
- Teams will be required to provide their source code repository, project documentation, presentation and a working demonstration of their solution.
- Teams may be required to present their projects before the judging panel for evaluation.
- Detailed submission instructions, deadlines and evaluation criteria will be communicated through the official Discord server.

Evaluation Weightage

Round	Weightage
Ideation Round	10%
Prototype Round	90%
Total	**100%**

6. Tracks and Problem Statements

- The official themes and problem statements for Lean In Hacks 8.0 will be announced at a later date.
- Participants are advised to follow Lean In IGDTUW's official social media handles for updates regarding theme releases, problem statements and other important announcements.
- Teams must ensure that their proposed solutions align with the selected theme or problem statement, wherever applicable.
- Any additional instructions regarding themek selection and project requirements will be communicated by the organising team.

7. Disqualification Criteria

A team may be disqualified from Lean In Hacks 8.0 under the following circumstances:

- Failure to meet the mandatory female participation requirement.
- Failure to complete the mandatory Google Form before the stipulated deadline, irrespective of the team's Devfolio registration status.
- Submission of false, misleading or inaccurate registration information.
- Plagiarism, impersonation, fraudulent submissions or misrepresentation of project work.
- Failure to comply with mandatory participation and communication requirements.
- Any form of misconduct, harassment or inappropriate behaviour towards participants, mentors, judges or organisers.
- Failure to meet mandatory submission requirements or deadlines during the Prototype Round.

The organising committee reserves the right to take appropriate action, including disqualification, in cases of rule violations or misconduct. All decisions made by the organising committee regarding eligibility and disqualification will be final.

Important Reminders

Before participating, please ensure that:

- ☐ Your team is registered on Devfolio.
- ☐ Your team includes at least one female participant.
- ☐ The Team Leader has submitted the mandatory Google Form.
- ☐ Your team has completed the sponsor task.
- ☐ Every team member has joined the official Discord server.
- ☐ All team members have read and understood these rules and regulations.

For any queries or clarifications, please reach out to the Lean In Hacks 8.0 organising team through the official Discord server or mail us at leaninginigdtuw@gmail.com

Happy Hacking!
